

Setting up an IMAP account on a Samsung Android phone or tablet

The following steps are required to configure email on most Samsung branded Android phones or tablets:

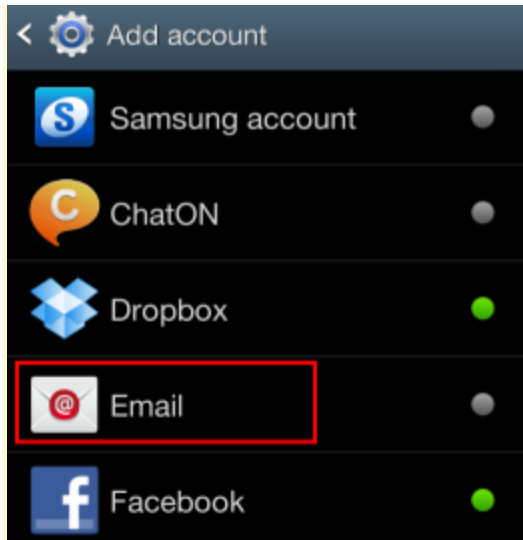

1. Locate your **Settings icon** within your App Drawer.

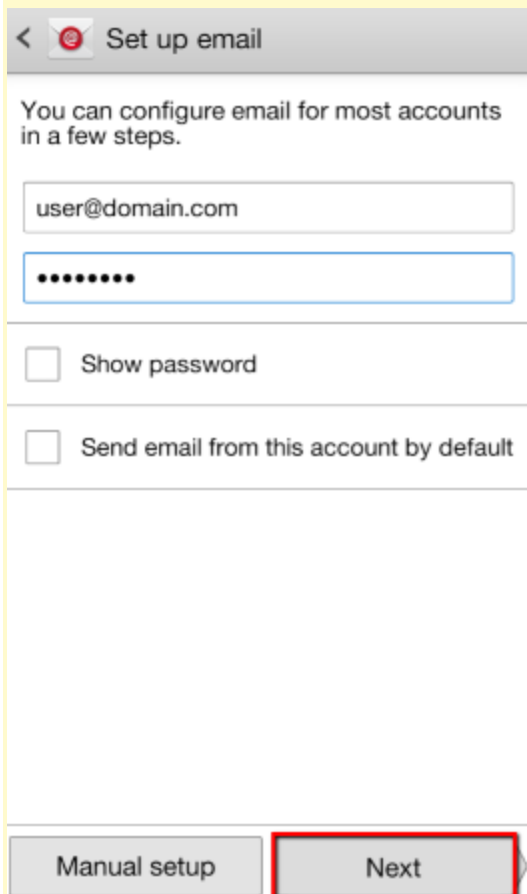

2. Within Settings, scroll down and select **Add Account**.

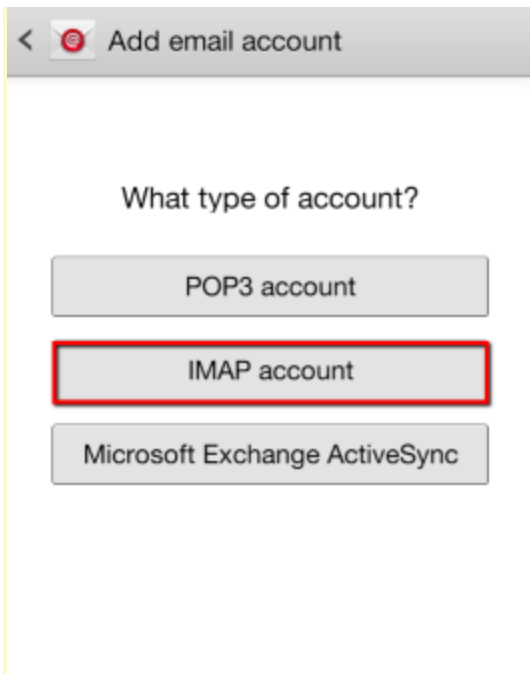

3. Select **Email** from within the Add account section.

4. Enter your Email Address and Password, then select **Next**.

5. Select **IMAP** for Account Type.

6. Enter the following information for Incoming server settings:

- Username: **Your complete 1791 email address**
- Password: **YOUR 1791 EMAIL Password, the same password you use to access the 1791 site**
- IMAP server: **secure.emailsrvr.com**
- Security type: **SSL**
- Port: **993**

Then, click **Next**
